**Teacher Reflection on Writing Instruction**

\*This page is recommended as a vehicle for discussion at an end-of-the year grade-level meeting.

After selecting one of (or a hybrid of) the student reflection activities, teachers are asked to use this page to reflect on student growth and teacher practice. It is not in any way evaluative.

Grade level \_\_\_\_\_

I chose for student reflection:

- Rubric to Rubric       Target Treasure Hunt       Writing about Writing

If you used a different activity, please describe:

How did the students respond to the activity?

What were the students' reactions to their writings?

What did the students want to celebrate about their writings? (strengths)

What concerns did students express about their writings? (weaknesses)

As a teacher, what did the exercise communicate to you?

Based upon your experiences this year in writing instruction, what would you do differently next year?
