

July Job Listing from the CareerPlus! Center

Info for Job Seekers:

1. CareerPlus! Center staff calls the following employers to help you locate job openings.
2. **Do not call these employers; the best action is to go into the business and ask to speak to manager.**
3. Even if employer is listed as "accepting applications" only, if you really want the job, take your resume into the business and apply. (..then go back once a week at the same time each week, and leave another resume and/or ask if they are hiring-this shows motivation!)
4. Notice in the **Updates & Tips** column how the employers want you to apply alone, not with friends.
5. Notice that employers want you to be dressed professionally, be energetic and ready to go to work. Many hire on the spot.
6. If an employer does not have a current opening, they hire those who keep coming back and checking with them.
