

## Contracts & Policies Workshop

Every family child care provider should have information (contracts & policies) about attendance, discipline, health and safety, holidays, and other topics in writing.

This workshop is designed to help you create contracts and policies for your child care business. This will be based on the Tom Copeland Redleaf Press Family Child Care Business Series. The workshop will address the development of your contract and policies and their importance to your business.

Since you are unique so are the services you provide.

No one can write your policies as well as you can. This training is designed to offer you important information on several components of your business you should put in writing.
