**Building A Purposeful Community: A Technology-Infused Professional Development Model**

Trang Lai 3079

School systems are built to resist change. Yet, with planning and the right tools, schools can be transformed into a purposeful community focused on engaging and motivating students. Learn how one school managed that change. The Project Wired initiative placed laptops and multimedia in teachers' hands to create collaboration for technology integration across grade levels. *This is a commercial session*

**The K12 HSN - We're Not Just About the Wires**

Alan Phillips 2129

Many people think of the K12 HSN (High Speed Network) as a program which provides Internet connectivity. While the connectivity is one item, the K12 HSN provides additional tools and services which are beneficial to the K-12 educational community, from the teacher to the IT professional. Stop by and see why the K12 HSN is not just about the wires.
