

**California Private School Advisory Committee, K-12**  
*Proudly Offers*

**“Effective Strategies for All Learners Using Technology”  
*Integrating One or More Computers into Classroom Learning***

**A One-Day Workshop for Teachers of Grades 3-8**

**Presented by:  
Lead Learners for Computer-Using Educators (CUE)**

**December 7, 2005  
(Wednesday)**

Location:  
**San Jose Christian School  
1300 Sheffield Ave.  
Campbell, CA 95088  
Phone: (408) 371-7741**

**Please call Joyce Maksin at 916-228-2218 for workshop information.**

***About the Workshop***

Project-based learning is a proven method for increasing student achievement for all learners, from special needs students to those who are gifted and talented. Join expert teachers in the field as they share successful strategies, projects and techniques to effectively integrate 1-4 computers into classroom learning. They will demonstrate how to use technology to engage students of all abilities, adapt delivery to disabilities, and recount their successful implementation of projects with students with wide-ranging needs.

**Participants will take away the following practical media projects and ideas:**

- **Famous people with handicaps:**  
Students work in teams to create short movies on celebrities, scientists, and other luminaries with learning disabilities. Each student takes on an “expert” role in one aspect of the project, from script writing to editing to on screen talent, or other areas.
- **Vocabulary (for any literature book/grade):**  
Core vocabulary words from texts are turned into mini-media projects using video, Internet research, student media creations, still photography and/or group role-playing. Each project is easy to put together and are no more than 2 minutes in length.
- **Story shuffling/sequencing (younger students)**  
Following a group reading, students record their own interpretations of the beginning, middle and end of each story using voice recording software. Students then shuffle the segments, and play them back which leads to a discussion of story sequencing, identification and plot structure.
- **Idioms (for English Language Learners)**  
Students explore standard English expressions such as, “Don’t count your chickens before they hatch,” “green with envy,” “frog in your throat,” “pulling one’s leg,” and launch discussions and projects based on understanding culture, language and expression.

Participants will also receive a reusable 256 MB USB Flash Drive containing the "digital construction paper" (i.e. the media, tools, and resources) needed to use these projects, resources and strategies the next day!

**Registration form due no later than November 14, 2005**

**Space is limited – registration will be accepted on a first-come, first-served basis!**

**About the Presenters**

**Computer-Using Educators (CUE), Inc.** is a nonprofit California corporation founded in 1978. CUE's goal is to advance student achievement through technology in all disciplines and at all educational levels from preschool through college. With an active current membership of thousands of educational professionals, CUE supports many regional affiliates and presents a statewide educational technology conference each year. CUE is the largest organization of this type in California, and one of the largest in the country. Visit [www.cue.org](http://www.cue.org) for more information.

**CUE-TO-YOU "Lead Learners"** are K-12 educators drawn from CUE's exceptional roster of conference presenters, experts and thought leaders. These are not merely instructors or trainers. CUE embraces the belief that the best leaders are also learners!

**Carol Anne McGuire** will be one of the trainers for this session. Carol has taught elementary and special education for over 15 years. She is currently a vision specialist at Imperial Elementary School in Orange Unified working with blind and visually impaired students. Mrs. McGuire supports and encourages her students to engage the world around them through all their senses, incorporating technology as a tool for communicating. She teaches all of her students to become filmmakers and musicians and connects them with students from across the globe.

**REGISTRATION FORM: PLEASE PRINT OR TYPE ALL ITEMS BELOW**

**Attach a typed list of additional applicants from the same school to one application.**

Name #1 \_\_\_\_\_

Name #2 \_\_\_\_\_

School \_\_\_\_\_

School Address \_\_\_\_\_

City, Zip \_\_\_\_\_

School Phone (\_\_\_\_\_) \_\_\_\_\_ FAX (\_\_\_\_\_) \_\_\_\_\_

Administrator Name: \_\_\_\_\_ Signature: \_\_\_\_\_

**To qualify as a participant, you must complete all lines above, and:**

- Be a full-time grade 3-8 teacher in a private non-profit school
- Register as a team of two or more teachers; single registrations not accepted
- Have moderate proficiency with basic computer use. Visit [www.edtechprofile.org](http://www.edtechprofile.org) and complete your CTAP<sup>2</sup> Proficiency Assessment. You will need a free account on this system to be able to complete the assessment. If you already on this have an account, click on the "Lookup Account" button. If not, click on "Create New Account" and select Private Schools in the district option. (See the "View Online Tutorial" button to learn about this assessment system.). You must print and mail your *Proficiency Assessment Summary Chart* with your registration form to the address below.

**Space is limited – registration will be accepted on a first-come, first-served basis!**

**Cost: \$40.00 per participant**

**Time: Registration 8:30 am –8:55 am**

**Continental breakfast provided**

**Workshop 9:00 am - 3:00 pm**

**Please register us for the following session:**

**December 7, 2005 - Campbell**

**Enclosed is check # \_\_\_\_\_made payable to: S.C.O.E.- Private Schools**

**In the amount of \$ \_\_\_\_\_ for # \_\_\_\_\_ participants (\$40.00 per participant)**

**(Includes reusable 256 MB USB Flash Drive and Continental breakfast)**

**Please mail this registration form to arrive no later than November 14, 2005, to:**
