

Gold Disk Nomination Form

Award Description

The Gold Disk is CUE's oldest recognition program. The first Gold Disk was awarded in 1983 and since that time many members of the organization have received this honor. A Gold Disk Award recognizes the recipient's contributions to CUE and to technology in learning. CUE members who have made a significant long-term commitment to CUE and its programs can be nominated to receive the Gold Disk. Gold Disks are intended to celebrate member contributions of time and talent to CUE.

Nominations for this category can be submitted by CUE members (all categories), CUE Affiliates, SIGs, CUE Committees, the Board of Directors and staff members.
