

You Can Achieve Your **DREAM**

PROJECT D.R.E.A.M. IMPROVES THE QUALITY OF EDUCATION FOR KERN FOSTER YOUTH THROUGH TUTORING AND MENTORING.

Foster Youth Services (FYS) & Cal State University of Bakersfield (CSUB) want to provide **YOU** with a worthwhile educational experience that will help you succeed in school and in life.

“After a few weeks with my tutor, I saw my grades going up. Now my confidence is high!” - Project D.R.E.A.M. Foster Youth

We provide junior high and high school youth residing in group homes with a fun atmosphere on a college campus where they can meet with a student tutor from CSUB and get assistance with Math, Reading and much, much more!

Formal tutoring programs like Project D.R.E.A.M. have been shown to be one of the most effective approaches to stabilizing educational transitions for children in foster care. In fact, students who participated in Project D.R.E.A.M. last year showed an average academic gain of one year and three months in six months of tutoring. These students also showed tremendous gains in their STAR math and reading results.

There will be opportunities for incentives, a chance to tour the campus and a reward for completion of the program in June.
