

## A Community Outreach , Youth-Crisis Program

E.D.G.E. provides a vital public service, whereby, our "get-tough" tactics instill fundamental changes in the juvenile offender's attitude. Through this change and our continuing efforts of reviewing his progress in the community, the minor will get a grasp on himself, his capabilities, and—ultimately—the direction he wants his life to go.

Those trampled-on  
dreams—of

what he wanted to become—once again will be realized and be seen in a brand-new light giving him hope for the future. This is accomplished through E.D.G.E.'s on-site techniques of inspiring each young person to set personal goals and through the neighborhood youth program's continuing assistance and their counseling.

When a youth has a definite goal, his purpose in life becomes more assured, and he's more confident that he can accomplish anything which he has set for himself and with his support group at his side, this will give him the assurance that ...

**HE WILL BE SUCCESSFUL!**
